How to validate a signature on a digitally signed document

1. About digital signatures on validation on pdf document

You will be receiving PDF licenses and letters through PMC NOC Application which will be digitally signed. The first one you receive will probably have the following image where you would normally expect to see a signature.

2. In order to validate the signature, you should press the right hand mouse button whilst you are hovering over the image and select the 'Validate signature' option. If you select 'Properties', don't worry as you will get to a screen shown below so pick up the instructions from there. A popup will appear as follows:

Press "Signature Properties" button as show in following image.

3. You will get follow image on clicking on "Signature Property"

Signed by: PARTMENT PUNE MUNICIPAL CORPORATION PUNE Show Co	
	ertificate
Reason: No Dues Certificate	
Signing Time: 2016/05/10 18:28:26 +05'30' Location: Pune	
Validity Summary	
The Document has not been modified since this signature was applied.	
a signing time is norm the clock on the signer's computer.	
Signature was created using Adobe Acrobat. Signature was validated as of the signing time: 2016/05/10 18:28:26 +05'30'	

4. Press "Show Certificate" on above image ,you will get below screen. Now click on "Trust" button
